What about it?
Hey, Tamaki...
This place...
If You're Gonna Dress Up Do It Like This
#02
It's UNIQLO!
ユニクロ
UNIQLO

Hey, onii-chan, let's go!
What?
Let's go? Go where?
About that...
honey
I said that I am going to teach you how to coordinate, right?
That's why we're going to a clothing store.
Going to a clothing store!?
SPIT
Sister...
Did you forget about our conversation yesterday while we were browsing the internet?

I DON'T HAVE ANY CLOTHES TO WEAR TO GO BUY CLOTHES!!

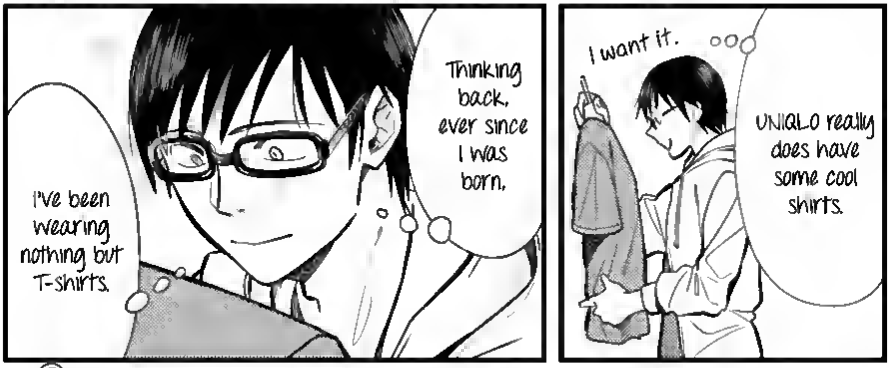
So you have the nerve to come to our store
We'll sell you something suitable for the likes of you
You're going to get soooo many compliments
That's cute

You don't have to buy expensive brand name clothing to look cool.
I said this yesterday too, didn't I?
You don't have to be cautious all the time.
Aaaa
glide
Stare..
You can show off a full body balance with good coordination.
It's fine.
I'll take you to a shop where even you can't get worked up, onii-chan.

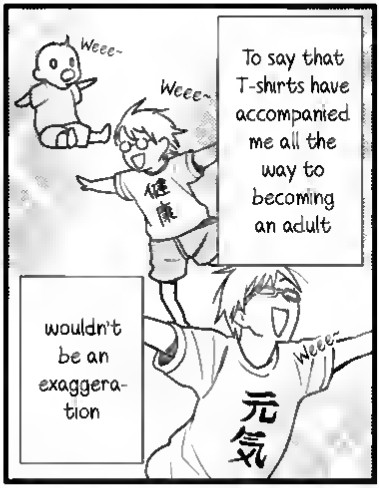
So... we've arrived
UNIQLO
at UNIQLO...
It's probably true that I won't get too worked up here.
But isn't UNIQLO especially untrendy?
You're being too harsh on them.
They deal with basic generic stuff here,
but if used well, you can still look good in simple clothing.
Hmm, really?
And the price is reasonable, so it suits you pretty well, onii-chan.

CASHIER
Now then,
inside this Men's Corner,
There is practically every basic item that a fashion-troubled onii-chan like you need.
That's too much work. Can't you just quickly teach me the basics?
Ehhhh, whyyy?
Now you'll just have to find them.
Now get out there!
Coming up with something yourself
is one of the joys of fashion.
You're serious.

TL/N: a "Collab T shirt" コラボTシャツ is a shirt with random brand names on them



I've been wearing nothing but T-shirts.
Thinking back, ever since I was born,
I want it.
UNIQLO really does have some cool shirts.

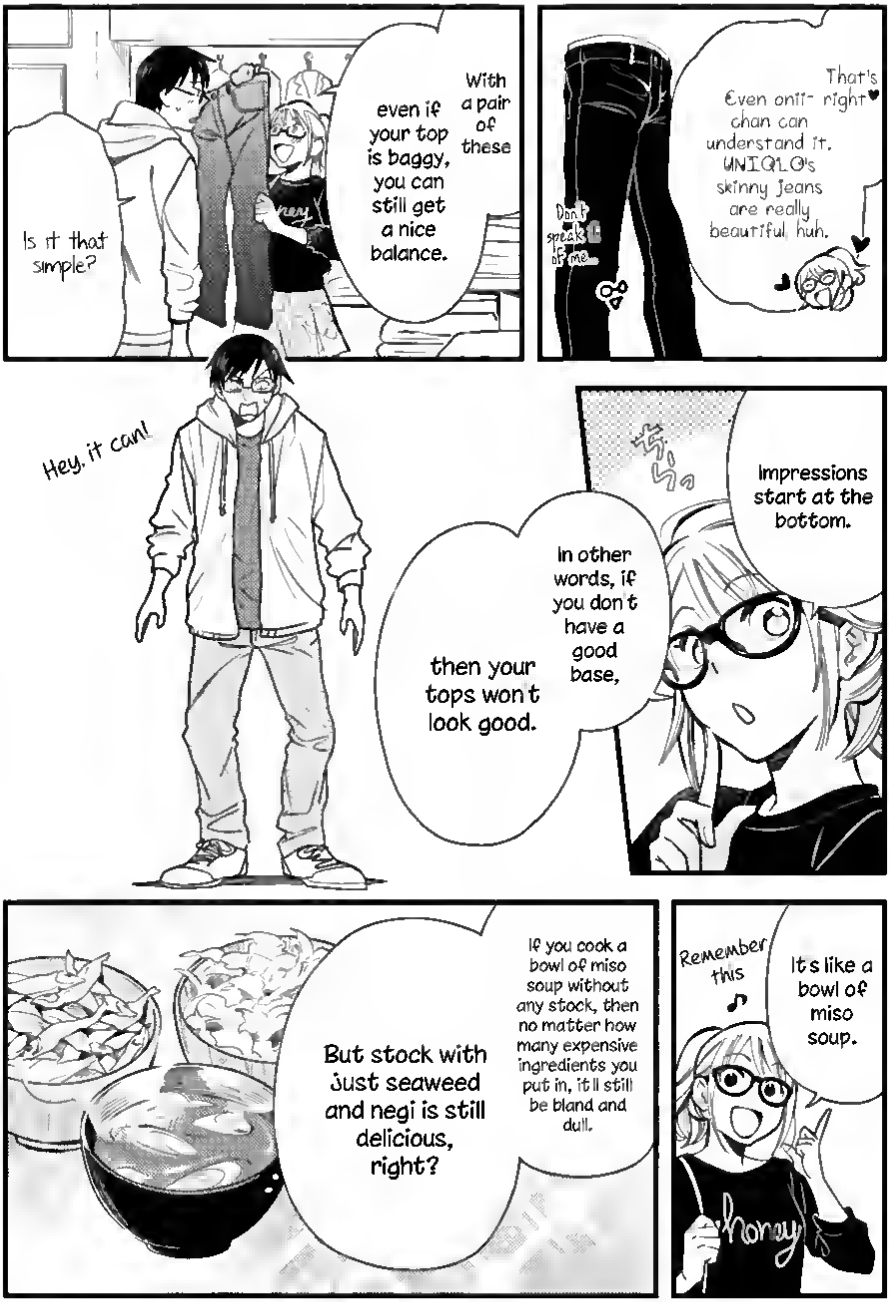


TL/N: original joke was that T-shirt is the "ki" in "kihon" – basic

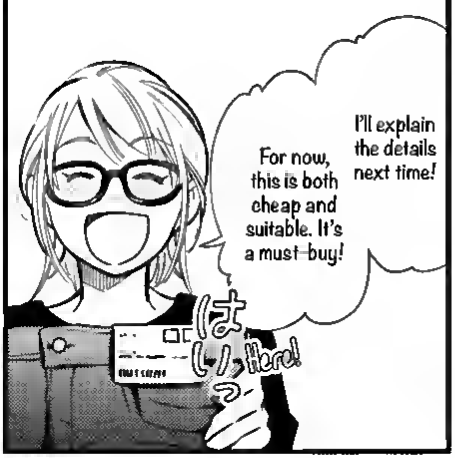
Why? T-shirts are fine, right?
Not for fashion!
I told you to find a basic item!
It is!
Wroo-oooong
WROOOOOONG!!
Ahaha
FuFu
Then this must be it! A white shirt!
Wearing this with an open neck is the epitome of "cool guy"!
What an ama-zing face.
Then I'll give you a hint.
We're not looking for tops.
Ohhhh
Not tops...
That means it's not something you wear on the upper half right?
I have to explain from there...

ずらっ
There are so many types of jeans too..
UNIQLO's staple bottom wears
..are jeans, right?
!
something suitable..
No matter what I bring, she'll just say "Wroooong" again
Tamaki,
are these it?
.....

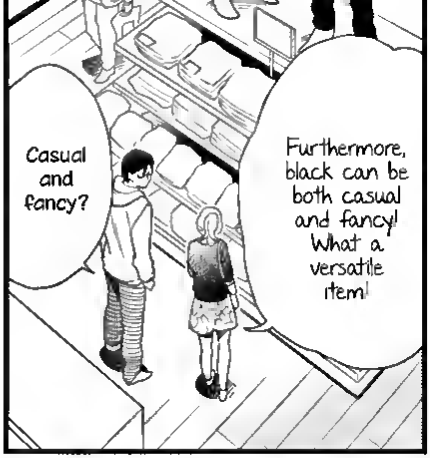
Skinny-fit...
Tapered Jeans...
Black...
Grab
Greee-aaat...
suc-cesss!!!
I saw this on display over there.
I thought the shape looked pretty cool...
How did you know!?
Amazing, Onii-chan! And I thought you were going to bring back a loose denim!



Is it that simple?
With a pair of these
even if your top is baggy, you can still get a nice balance.
Don't speak to me.
That's right♥
Even onii-chan can understand it. UNIQLO's skinny jeans are really beautiful, huh.
Hey, it can!
Impressions start at the bottom.
In other words, if you don't have a good base,
then your tops won't look good.
But stock with just seaweed and negi is still delicious, right?
If you cook a bowl of miso soup without any stock, then no matter how many expensive ingredients you put in, it'll still be bland and dull.
Remember this
It's like a bowl of miso soup.
honey



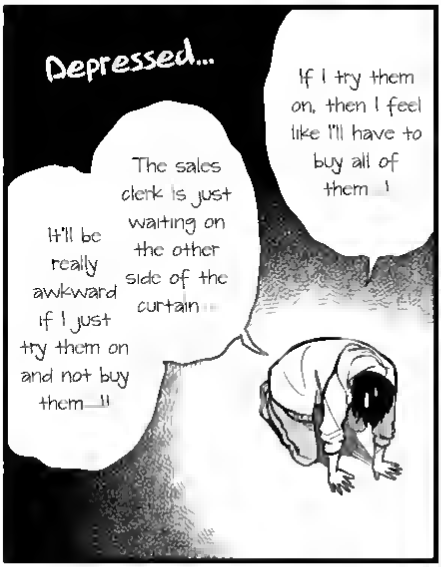
For now, this is both cheap and suitable. It's a must-buy!
I'll explain the details next time!
Here!



Casual and fancy?
Furthermore, black can be both casual and fancy! What a versatile item!

Eh, what? You don't like it?
Well...

Now, try it on!
Eh!?
Try it on...!?
Surprised

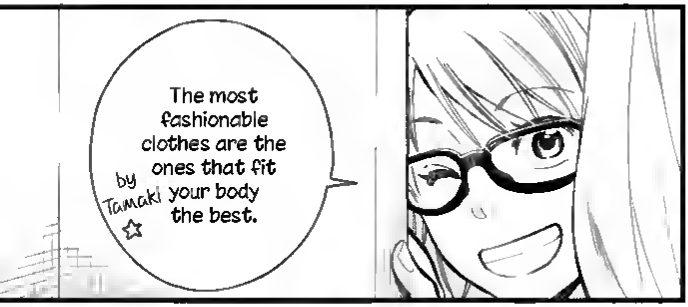


Depressed...
If I try them on, then I feel like I'll have to buy all of them...!
The sales clerk is just waiting on the other side of the curtain...
It'll be really awkward if I just try them on and not buy them...!!

Isn't that...
Gulp...
A bit bother-some...?

Which size are you? I'll wait outside for you!
You have to choose only the ones that fit you perfectly.
These are clothes for yourself.
Swiftly

Puff up
There's no such thing!



The most fashionable clothes are the ones that fit your body the best.
by Tamaki ☆

Wait... I'm being serious!

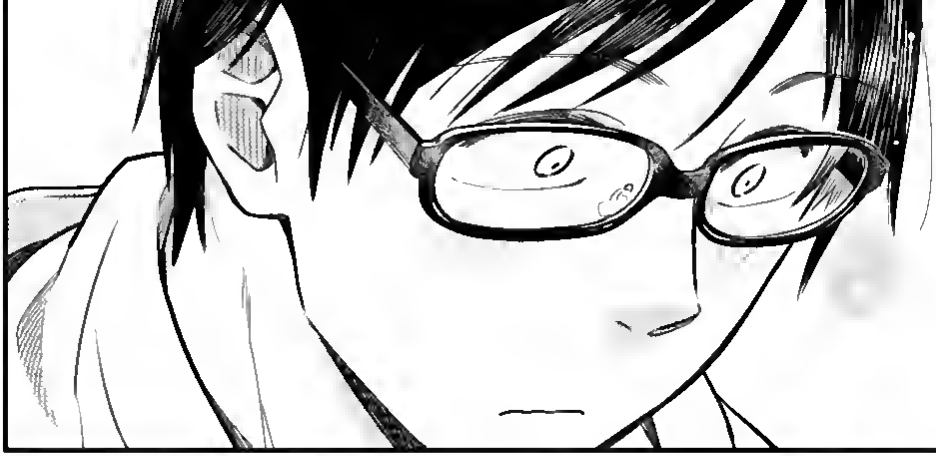
Ugh, the button is tight
If it's just by a bit then endure it
It'll get bigger as you wear it

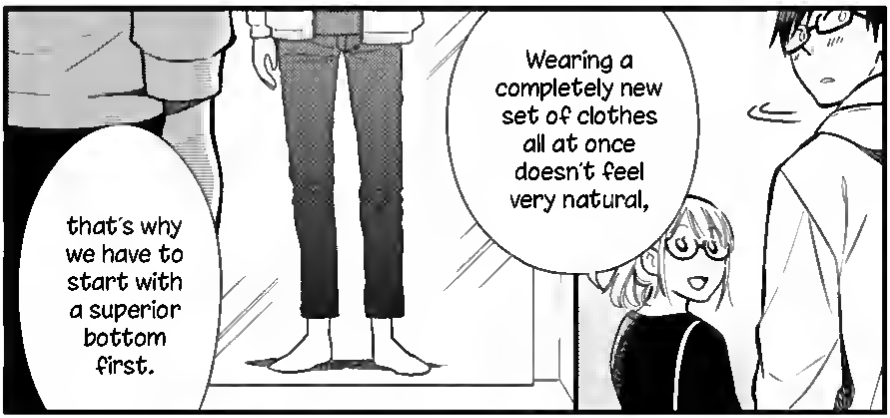
But, well...
I won't be able to tell if they're too big or too small
If I don't try them on...

Pull
Ah

This is probably...
pretty...
Turn
cool...
.....
How is it?
Uwa
Pull
Ah.
Doesn't that fit perfectly?

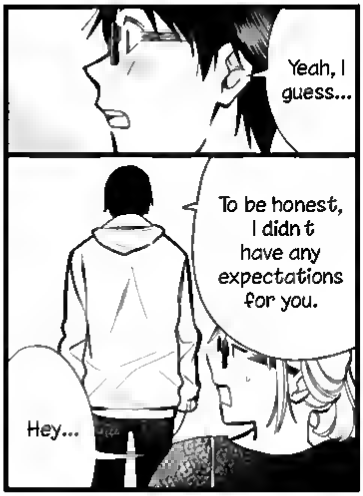
The hem is here...
Want to fold it up?
Tapered jeans are nice because they have a slender silhouette.
It'll take a bit of time. But if it's too unreasonable, we can raise the hem up.
Tapered...
Skinny-fit tapered jeans.
They fit to your body and the silhouette gets gradually narrow.





Wearing a completely new set of clothes all at once doesn't feel very natural,
that's why we have to start with a superior bottom first.

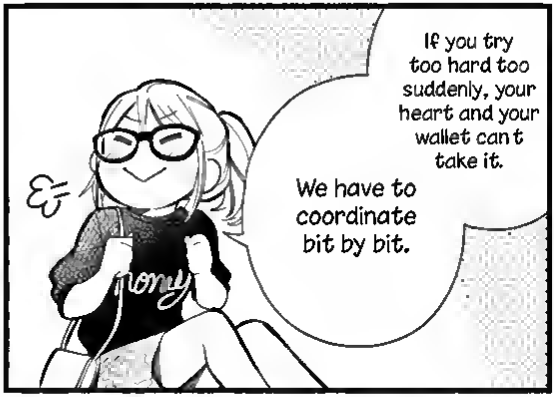
The silhouette looks better than any pair of jeans I've bought.
The color black stands out, and there's no resistance when I put them on.



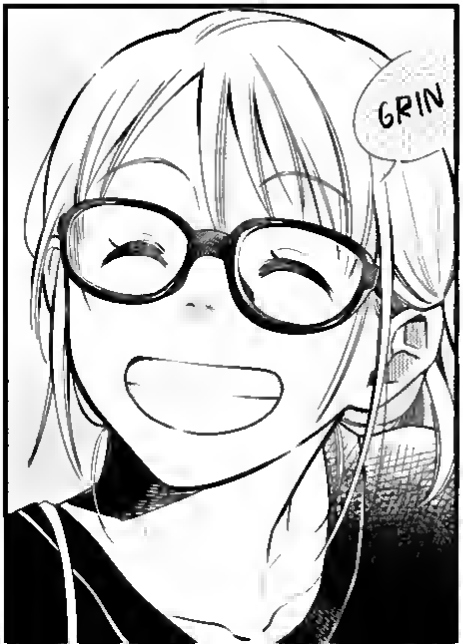
Yeah, I guess...
To be honest, I didn't have any expectations for you.
Hey...

That's right!
It also goes well with the clothes you already have.
And you look better than usual, right?

How does it feel putting them on, onii-chan?
Huh?
Ah, uhmmm...



If you try too hard too suddenly, your heart and your wallet can't take it.
We have to coordinate bit by bit.



GRIN

I think...
They're great...

Raising the hem takes 1 hour. What should we do until then?
.....
I've bought decent clothes for the first time in forever
They're just a pair of jeans though.
?
Hey
Thanks to Tamaki,
Hm, let's see...
How does takoyaki sound? My treat.
Eh, your treat?
Let's go!!

Black skinny jeans

But stock with just seaweed and negi is still delicious, right?
If you cook a bowl of miso soup without any stock, then no matter how many expensive ingredients you put in, it'll still be bland and dull.

In chapter 2, the basic item that Yuusuke chose at first was a T-shirt. Many people make the same mistake of choosing a top first when they start out. After all, it's closer to your face, and easier to get a feel of when looking in a mirror.

However, in actuality, the fact that your bottoms, which plays the role of coordinating, has not been change will limit you greatly, even if you change your tops. Making "to look trendy" as your goal, the first thing you'll have to buy is the bottoms. With that said, what should you buy? A pair of black skinny jeans is my number 1 recommendation.

As Tamaki has explained,when looking trendy, the keyword is "mature". Since the dawn of mankind, a woman's youthful beauty and a man's calm maturity has been an essential element to the human charm.
And thus, the most iconic item for it would be the suit. However, to wear a suit on a day off based solely on that feels a little bit out of place. But that "suit-ness" is something we need to capture in our casual wear.

Skinny Jeans, are casual wear, that have the "slender" and "deep black" elements of a suit. You can harness this mature look in your lower half, while still wearing something casual like a T-shirt on top, and still give off a trendy vibe. Because of this, my recommendation would be a pair of black skinny Jeans.
